

Make a Difference for Struggling Readers!

- Do you want to know about the latest research into effective interventions for struggling readers?
- Do you want to know which interventions have been found to be effective in Irish schools?
- Do you want to widen your skills set and deepen your knowledge about literacy difficulties?
- Do you want to know more about how to use assessment to inform intervention?

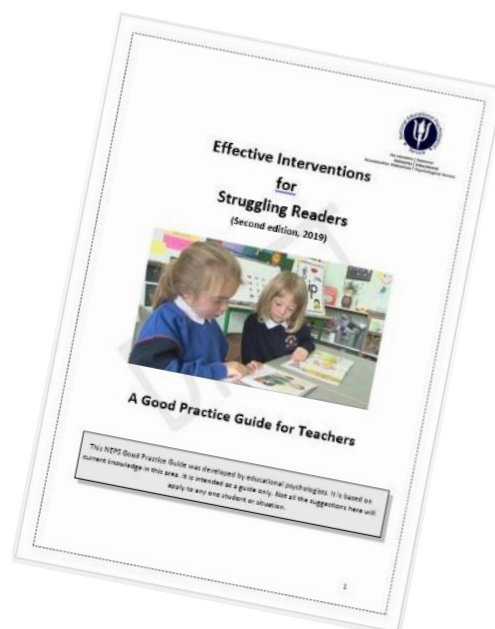

NEPS, Effective Interventions for Struggling Readers Presented by **NEPS Psychologists – Fiona Clancy, Catherine Canney, Ann-Marie Drake & Aoife Olsthoorn**

This is a series of three webinars aimed at Primary and Special Education Teachers
May 27th, June 3rd & June 10th, 2021 from 3.30-4.45pm

12 months progress in reading over 3 months of intervention!

Previous research by NEPS has shown that Irish teachers can, over the course of a 3 month intervention, help struggling readers make 12 months progress in both word reading and in reading comprehension. These sessions will describe the international research and will focus on interventions and approaches used in recent successful Action Research Projects.

Effective Interventions for Struggling Readers is a NEPS publication, freely available on the DES/NEPS website.
